DESCRIPTION:

The pumps are compact, lightweight units and highly portable. Designed specifically for use by contractors and utility service personnel. These pumps can operate in up to 104°F (40°C) temperature water. Before pumping fluids other than water consult the factory, giving fluid, fluid temperature, specific gravity, viscosity, capacity in USGPM and total head and/or pressure requirements, including friction loss through discharge line, fittings, valves, etc.

WARNING:

CANCER AND REPRODUCTIVE HARM - WWW.P65WARNINGS.CA.GOV

Testing is performed with water specific gravity of 1.0 @ 68°F (20°C), other fluids may vary performance
